

# STRUCTURE

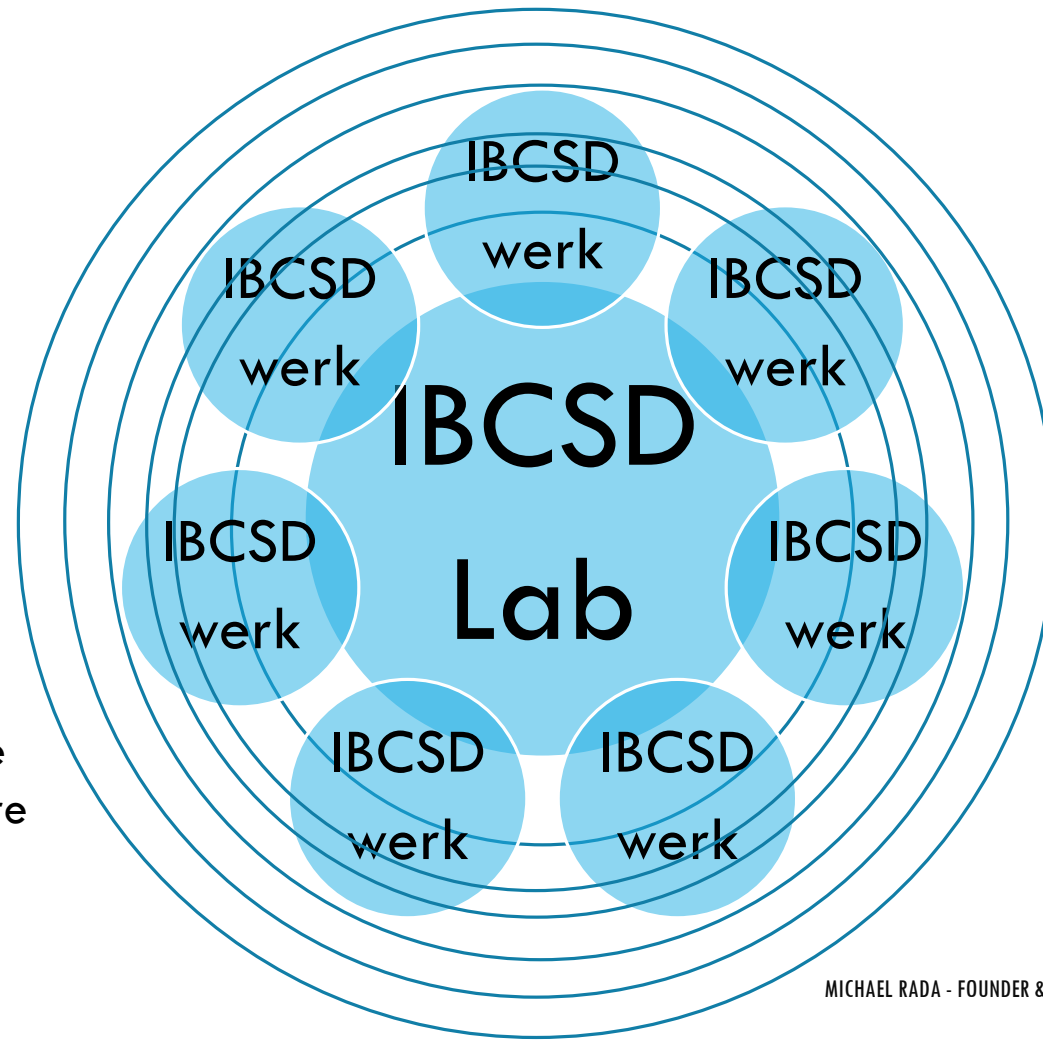

International Business Center of  
Sustainable Development

IBCSD

# IBCSD — WATER RING

IBCSD business structure refer to the nature and elements

Water is great example of efficiency. Thrown stone is not only absorbed, but generate energy which is regularly shared with the rest. Not only the surface but whole structure is affected

IBCSD Lab build up the liquid surface, absorbing material it generate power of change.

IBCSD werks receive the output and produce the products designed. IBCSD werks do most of the production and gain most of the profit. Small profit share flow back for further LAB and project development.

# IBCSD — ASSOCIATES PLACE

IBCSD Lab, so as werks consist of many associates. Every single one is important for the project function, every single knows its place and is known and recognized by others.

Every single person and company define its

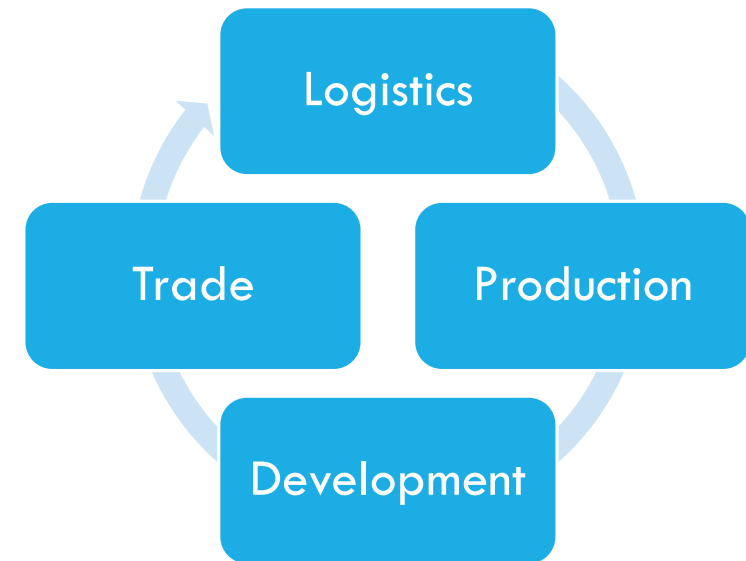

Strong site. IBCSD do not push people and

Companies to do other than core, loved,

Business and proces.

We build up harmonized chain of processes

Based on expertize and hard work of every single associate.

# IBCSD — LAB PLACE

IBCSD LAB is defined as water surface and will absorb whole chain and power it by reflection of work output. It will be mother werk at the same time which workout how to do most Efficient.

Mother LAB will be located in Plzen, Czech Republic, others will follow, but there will be only one mother to watch, as every human can have many fathers, but only one mother in place, carrying the child during the pregnancy.

Mother LAB will receive sample of every single material and product. It will proces in own werk and deliver the output with all details needed.

Mother LAB will share information to all werks, for sharing generated wisdom is one of the roads of global prosperity.

# IBCSD — WERK PLACE

IBCSD WERK – is place of production. It is meeting place for those who loves what they do, who understand the sharing policy in time, space and money.

IBCSD WERK will be Gate to and from the world. It will be house of work offering place to all who looks for. It will be more than industrial playground for it will be the place where ideas would be materialized in favour to human and nature

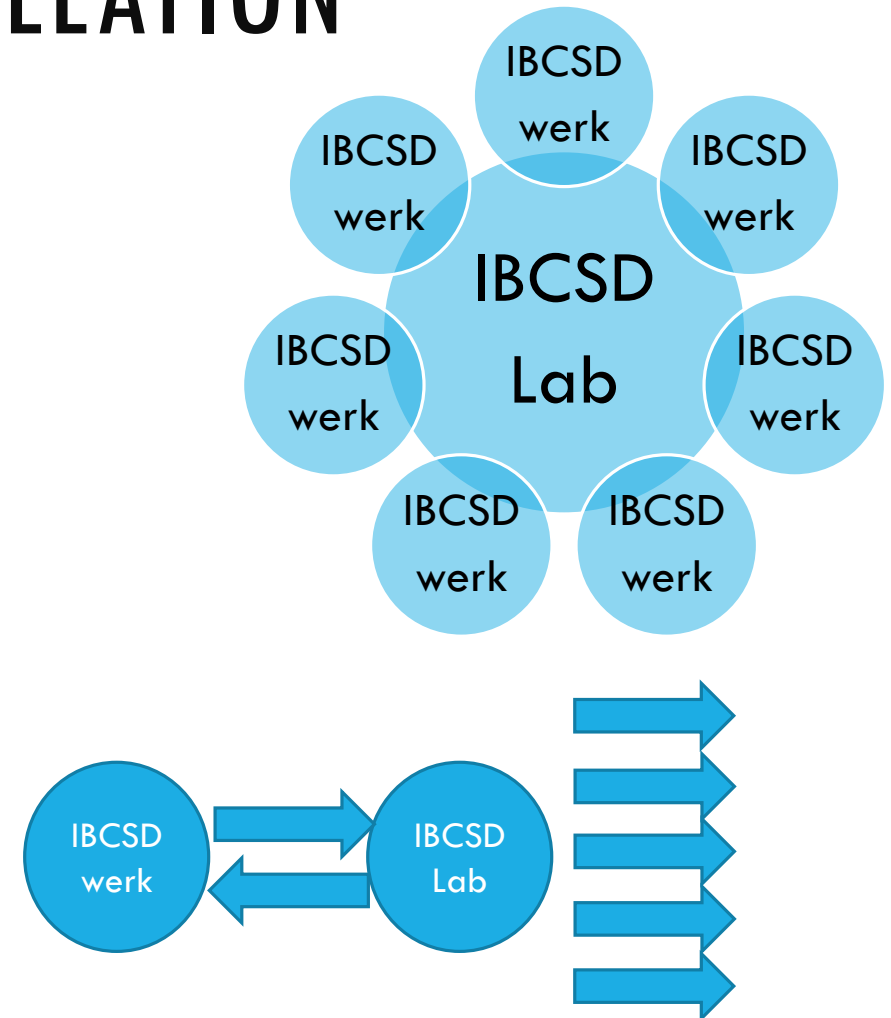

IBCSD WERK will be independent entity, the only connection with the IBCSD LAB will be invisible string, which will connect Mother and child. The relationship will help both to grow for one without the other will establish just segment, not harmony.

IBCSD WERK will accommodate Associates in the region with no limits to location.

IBCSD WERKS should work together to increase the positive impact on global picture

# IBCSD – LAB & WERK VISUAL RELATION

1. WERK find surplus material or product
2. WERK deliver sample to LAB
3. LAB analyze, proces and develop product
4. LAB return output to original WERK
5. LAB share information to all IBCSD WERKS
6. LAB keep on processing and share outputs
7. WERK generate profit and share part with LAB
8. LAB utilize the share for further development

# IBCSO GROUP HAS MANY FACES

# FACES WHICH NEVER GET LOST BEHIND

# IBCSD LAB – FIRST OFFICE

First IBCSD LAB has been setup in Plzeň, Czech Republic in a city center renovated brownfield. For the equipent we will use the UPCYCLING skim, to present the ability and mindset of IBCSD network.

# IBCSD EXPERTISE

IBCSD industrie and network consist of experts with passion for love. Just consider how the cooperation of first 24 members of IBCSD group can make a change.
